**A note on pricing.** The four **SET PRICE** services above (Basic Service, Major Service, Pre-Purchase Inspection, Diagnostic) are fixed — that's what you pay. All other prices below are **common-vehicle thresholds** (typical 4-cylinder makes). For some models — especially European and performance vehicles — parts and labour can vary. Your exact fixed price is always quoted and agreed upfront, before any work begins.

“from” means a starting price for a common vehicle — your exact fixed price is quoted and agreed before any work begins, and we photograph the fault so you see why. For some makes/models (especially European & performance) the price varies; the figure shown is the common threshold. Don't see your job? We do plenty more — just ask for a quote. Workshop-only jobs (head gasket, engine & transmission rebuilds, steering racks, some timing chains) we quote and refer.
